AIRLINE OPERATIONS INTELLIGENCE

U.S. Airline On-Time Performance | July 2025

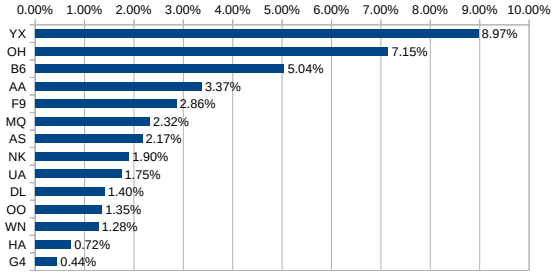

Operational Performance & Delay Analysis

Total Flights	Departure Delay Rate	Cancellation Rate	Diversion Rate
631,428	28.56%	2.45%	0.50%

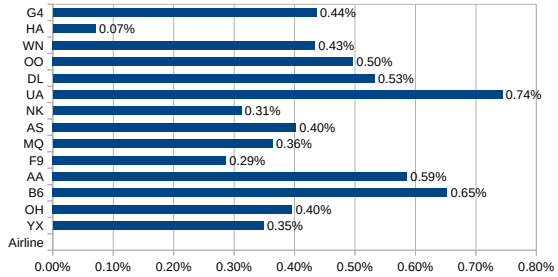

Departure Delay Rate by Airline — July 2025

Cancellation Rate by Airline — July 2025

Diversion Rate by Airline — July 2025

KEY OPERATIONAL FINDINGS

01 | DEPARTURE DELAYS
AA recorded the highest operated-flight departure delay rate at 35.15%, followed by F9 at 34.87%.

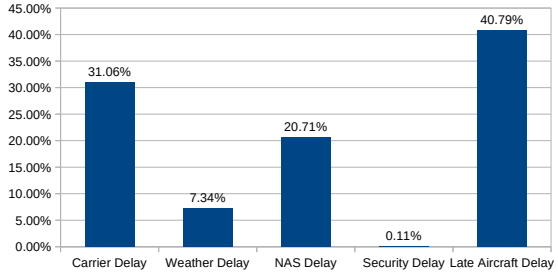

02 | CANCELLATION PERFORMANCE
YX recorded the highest cancellation rate at 8.97%, followed by OH at 7.15%. G4 had the lowest rate at 0.44%.

03 | FLIGHT DIVERSION PERFORMANCE
UA recorded the highest diversion rate at 0.74%, followed by B6 at 0.65%. HA recorded the lowe st rate at 0.07%.

04 | ARRIVAL DELAY PERFORMANCE
F9 recorded the highest eligible-flight arrival delay rate at 36.00%, followed by AA at 34.98% and B6 at 33.72%. HA recorded the lowest rate at 20.43%.

05 — DELAY CAUSE ANALYSIS:
Late Aircraft Delay contributed 40.79% of attributed delay minutes, followed by Carrier Delay (31.06%) and NAS Delay (20.71%). Together, these accounted for 92.56% of attributed delay minutes.

Contribution of Delay Causes — July 2025

Arrival Delay Rate by Airline — July 2025
